I. Introduction

Thank you for having you get interested in HelioBase. This document will explain installation and registration of HelioBase license.

1. How to get HelioBase

Access the heliobase.com (<http://www.heliobase.com/>) and move to download page. You can get the latest version of HelioBase installer.

2. Type of License

- Trial License
This license can be evaluated for 30 days from a license registration date.
- Legal License
This license does not have use restrictions.
 - Node Locked License
This license is issued to your computer. Only with PC which performed license registration, you can use HelioBase.
If you want to use HelioBase on another PC, you have to release your license, and have to register license on new PC again.
 - Removable Lock License
This license allows you to use HelioBase on any PCs whom one USB memory type removable key is connected.

3. Registration of a license

In order to use HelioBase, a trial license or a legal license needs to be registered.

After installation of HelioBase, if it passes over six days, without carrying out license registration, HelioBase will not start. After installation of HelioBase, you should perform license registration as earlier as possible.

Moreover, your PC needs to be connected to the Internet when you register a trial or legal license.

II. Installation

Please install according to the following procedures.

Please prepare an installer for arbitrary places, such as a desktop.

- ✓ An installer may differ in file names, such as setup.exe and setup-X.X.X.X.exe. This book explains the name of an installer as setup.exe.

①

Double-Click the setup.exe

②

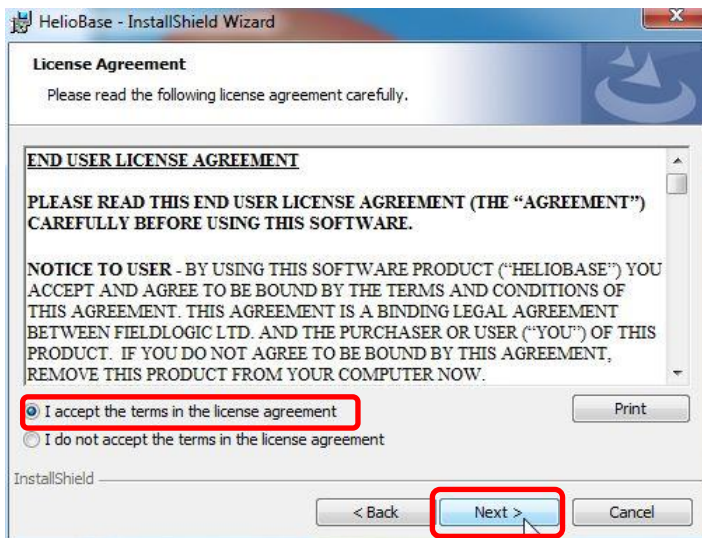

Choose "English" and push the "OK" button.

③

Push the "Next" button.

④

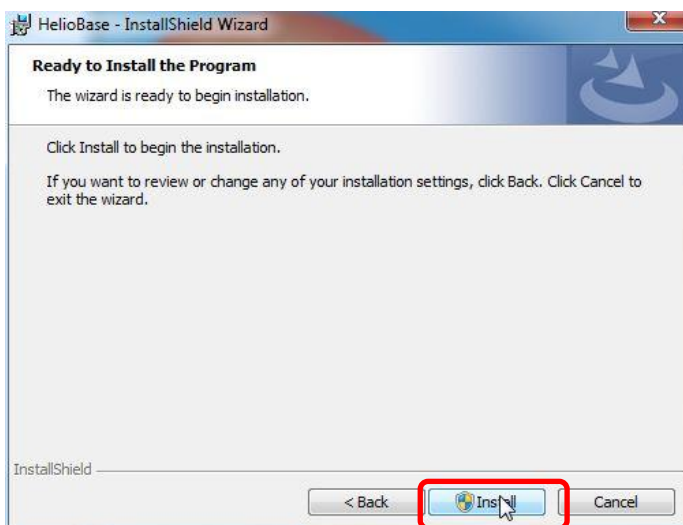

Please agree with License Agreement and push the “Next” button.

⑤

Push the “Next” button.

⑥

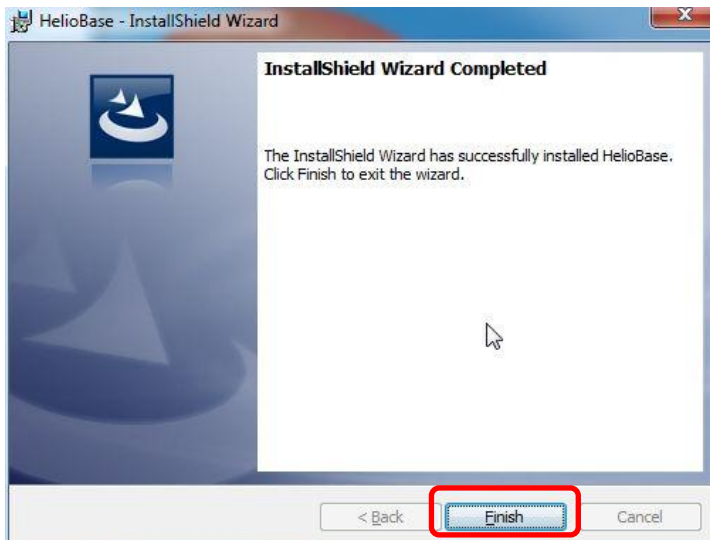

Push the “Install” button.

⑦

Please wait for a while.

⑧

Push the "Finish" button.

HelioBase will start and installation will be finished.

III. Registration of legal license

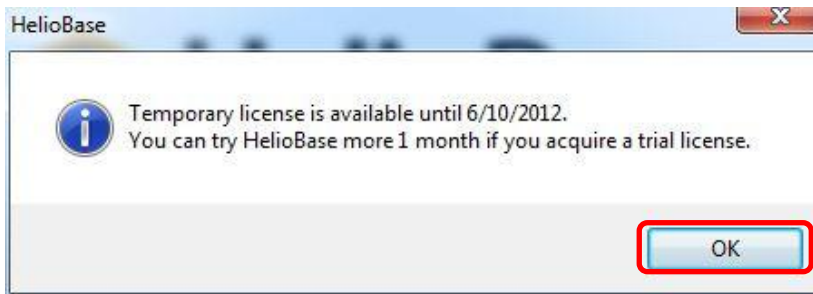

If you have the legal license of HelioBase, you can register the legal license.

If you have no legal license of HelioBase, you can try HelioBase for 30 days by registration of the trial license. If you want to try HelioBase, Skip this chapter.

1. The case of registration for first time

Enter user name in the Name textbox.
 Enter user Email address in the Email address textbox.
 Enter user Email address in the Email address(confirm) textbox again.
 Push the “Next” button.

- ✓ The password for certification is transmitted to the mail address filled in here. Please fill in a certainly receivable mail address.

④

You can see the pop-up dialog saying that the password has been sent.
 Push the “OK” button and check the Email by using your mailer.

⑤

Subject: Information of the completion of HelioBase trial license registration
Date: Mon, 4 Jun 2012 15:12:20 +0900 (JST)

Dear Takahiro, Tetsu

Thank you for having you apply for the trial license of HelioBase.
 On the license setting screen of HelioBase, please set the following password and validate a trial license.

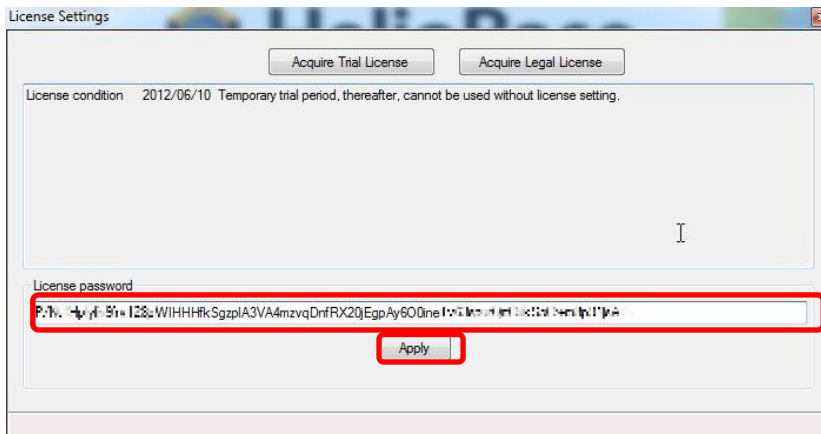

-----Password-----
 28pWIHHHfkSgzpIA3VA4mzvqDnfRX20jEgpAy600ine

This mail is distributed from the mail address only for transmission
 Please understand that it cannot answer even if you reply to this mail

From HelioBase customer support
 HelioBase Home Page
<http://heliobase.com>

Find the mail from
[“license-auto@heliobase.com”](mailto:license-auto@heliobase.com)
 whose subject is “Information of the completion of HelioBase trial license registration”.
 You can see the password which is written between
 “-----Password-----”
 and
 “-----”
 in this mail.
 Please copy this password.

⑥

Paste the copied password on the License password textbox and push the “Apply” button.

⑦

Push the “OK” button.

HelioBase starts and registration of the trial license is completed.

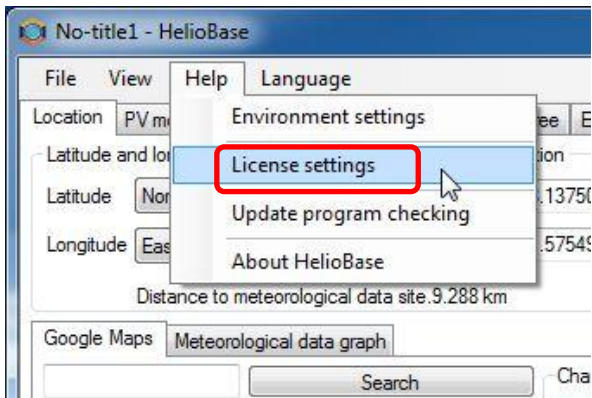

V. Release of the legal license

Release of a license is required when using a node locked type legal license with another PC.

HelioBase installed in another PC is not started with the same license until release of the license is performed.

Please release the legal license according to the following procedures.

①

Choose “License settings” in the help menu.

②

Push the “Release Legal License” button.

③

Push the "Yes" button.

④

Push the "OK" button.

HelioBase is finished and release of the legal license is completed.

VII. Update

HelioBase confirms whether there is any release of the latest version at the time of starting. When HelioBase detects the latest version, a dialog as shown below is displayed.

Push the "Yes" button.
Update will be started.

Update is performed
automatically.

Push the "OK" button.
Updated HelioBase will start.

VIII. Uninstall

When HelioBase becomes unnecessary, please uninstall in the following procedures.

- ✓ In a node locked type legal license, when shifting to another PC, release of the legal license is needed.

①

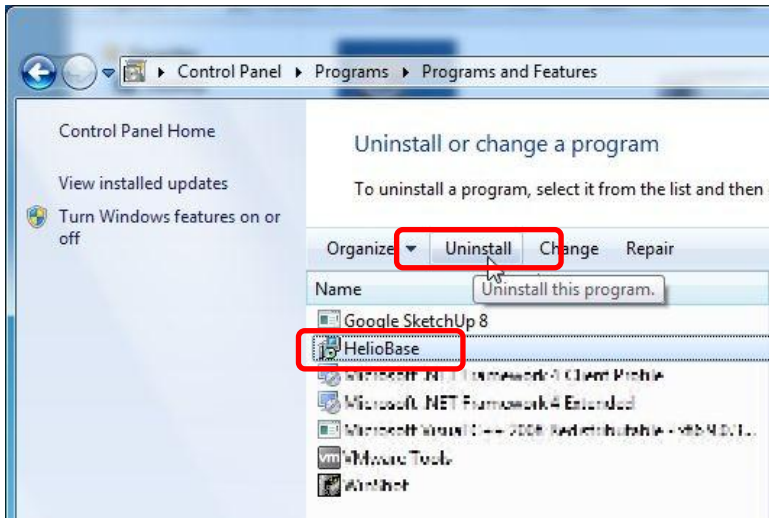

Choose the “Control Panel” from the Windows Start menu.

②

Open the “Programs” in the Control Panel.

③

Choose HelioBase and push the “Uninstall” panel.

④

Push the “Yes” button.

After a while, uninstallation is completed.
